"JUGS Sports has been synonymous with quality since its inception.

Realizing a need to come out with better protective screens, JUGS recently came out with the Protector Series.

Many high schools and colleges have hitting facilities now. They hit year round and need a screen built stronger than in the past with better padding on the frames.

JUGS now makes five different screens in this style to choose from, including the L-Shaped Screen, Softball screen, Short-Toss Screen, Square Baseman Screen, and Sock-Net.

In development for two years, each screen comes with a two-year guarantee on the netting and frame. No company guarantees their screens longer."

### The JUGS Protector™ Series Protective Screens feature:

- Black, pearl-foam, vinyl-covered .5-inch-thick padding.
- Black, double-thick 691-90 ply, poly-E netting.

- **Baseball I Screens are easily assembled—no welding or lacing.**
- **All joints are double-bolted for maximum strength and superior longevity.**
- **1.5-inch-diameter, 2mm-thick, 1020 cold-rolled steel frame tubing.**

- **2-Year Guarantee on netting and frame: No one guarantees their screens longer.**
- **Hitting-Facility Tough design.**
